

Test 1 + 2 - Results

Econometrics 3112.03 - Spring 2019

Ercan Karadas

02-28-2019

Your weighted score is calculated as the arithmetic average of Test 1 and Test 2, i.e.

$$\text{Weighted} = (\text{Test 1} + \text{Test 2})/2$$

The statistics and the histogram below portrays your relative standing in class as of now.

Descriptive Statistics

Statistics	Weighted
Min	47
Max	100
Median	72
Mean	70
Std Dev	13

Grading Scheme

Letter	Min	Max
A	85	100
B	75	84
C	65	74
D	55	64
F	0	54

Histogram

Each color shows a different letter grade F though A, respectively.
